# HTML

## Introduction

**Introduction** Hypertext Mark-up Language is the programming language for web-pages. Understanding HTML makes it easy to fine tune your web-design even if you are using a web-site program such as FrontPage or Dreamweaver.

**Objectives** This course is designed to introduce the fundamental functions of HTML as a language and as a web design tool. By the end of the course trainees will be able to create complete web-pages, using only their HTML skills.

**Designed for** New HTML programmers. No previous knowledge of HTML or other programming languages is required.

**Duration** One day

**Topics** Introduction to HTML  
Introduction to Tags  
Basic Page Elements  
Formatting Text  
Simple Lists  
Creating Hyperlinks  
Anchors  
Images  
Tables

**Follow-up** Individual consultancy and tuition as required.

*Imagine what you'll know tomorrow...*
