Microsoft PowerPoint

Introduction

Introduction Microsoft PowerPoint is the latest release of one of the world's best selling graphics packages. With PowerPoint you can create powerful overheads, 35mm slides or PC presentations, as well as speaker's notes and audience handouts.

Objectives An insight into the main PowerPoint features. The knowledge gained will enable students to produce an interesting presentation efficiently and effectively.

Designed for New users. Participants should ideally have attended our "PC Skills for Everyone" course or attained a similar level of proficiency with Windows and a mouse, but this is not essential.

The material covered in the PowerPoint Introduction will provide delegates with the necessary knowledge to sit the ECDL Module 6 – Presentation or the MOUS PowerPoint Core exam.

Duration One day
